REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: allowance of claims 29-44 is indicated because the prior art of record does not show or fairly suggest a variable voltage protection component having a layer of dielectric polymer or glass which has a thickness of less than about 1.6 mils and does not contain conductive (i.e., electrical conductive) or semiconductive particles to provide an electrical path through which current passes from an over voltage event to the ground plane as recited in claim 29 or having two different layers of voltage protection material in which each has different percentage by volume of conductive and/or semiconductive particles (i.e., 20% and 40%) as recited in claim 43.

It is noted that the Double patenting rejection of all of the claims has been withdrawn in lieu of the T.D filed on December 16, 2005.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Martzloff (US 3,752,419), Harnden, Jr. (US 3,743,897), Kresge et al (US 4,153,921), Martinez et al (US 5,294,374), and Brown (US 5,345,212).

The drawings filed on March 17, 2005 have been approved by the Examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu Ba Hoang whose telephone number is (571) 272-4780. The examiner can normally be reached on Mon-fri from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin Enad can be reached on (571) 272-1990. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
